

2022 SPONSORSHIP OPPORTUNITIES

Thank you for your interest in supporting the FLATE Manufacturing Education Awards!

The Florida Advanced Technological Center (FLATE) and FloridaMakes, are working together to recognize educators as well as industry and community partners who support advanced manufacturing in Florida.

In their 15th year, the awards are geared to recognize secondary and post-secondary classroom educators, industry professionals and organizations for their outstanding contributions to promote and support technology education and career awareness in manufacturing.

Award winners are selected from nominations submitted from all across the state. Nominees are judged by an Awards Committee made up of industry representatives, Florida Association of Industrial and Technical Educators (FAITE) board members, past awardees, and members of the FloridaMakes Advanced Manufacturing Workforce Leadership Council.

This year the Awards will be presented during the FACTE Annual Conference and Trade Show, July 19-21 in Jacksonville, FL. Award winners will also be recognized at the FloridaMakes MakeMore Summit October 26-27 in Orlando, FL.

Your financial contribution will help cover the costs for the Awards ceremony, the winners' trophies, as well as their participation in the Florida Association for Career & Technical Education (FACTE) Annual Conference and the MakeMore Summit.

To become a sponsor please contact Marilyn.Barger@flate.org or Ernie.Friend@flate.org.
