

# Summer Energy Camp

**July 8 - 11, 2013**  
**9 a.m.—1 p.m. Daily**

**Hillsborough Community College**  
**SouthShore Campus**

**Space is limited to 25 rising 8th grade students**

- Participate in fun, yet challenging, hands-on activities to make real-life connections to world of renewable energy.
- Learn about energy concepts including fossil fuels, environmental impact, and the science of electricity generation.
- Do lots of hands-on activities while learning about solar cells, wind energy, environmental care, fuel-cells, home energy efficiency and ocean energy.

**\*Please call or email Nina Stokes at (813) 259—6587/ [nstokes@hccfl.edu](mailto:nstokes@hccfl.edu), for more information.**

This Workshop is made possible through a partnership between the Florida Advanced Technological Education Center (FLATE), Hillsborough Community College, the Florida Energy Systems Consortium (FESC) and the University of South Florida.
