### **ABSTRACT**

Manufacturers across the nation, including the State of Florida, consistently have a demand for qualified employees. By "qualified" they mean individuals with specialized technical training and with relevant work experience. However, such requirements are often waived for entry-level positions, as long as a potential employee is willing to learn. Despite these concessions, manufacturers are not filling all of their job vacancies. As difficult as finding and hiring new employees might be, it's likely that retaining them becomes a greater challenge, not only because of lack of technical skills or aptitude, but due to inadequate "soft skills".

The FLATE Center for Manufacturing Education designed *The Toothpick Factory*® in response to such competency gap. The hands-on simulation intends to allow participants to become aware, exercise and reflect upon a set of soft skills affecting teamwork.

### **FACILITATOR INFORMATION**

### Overview and objective:

This facilitator's guide is intended to be used in conjunction with <u>Soft Skills Presentation</u> (available online at <u>madeinflorida.org/toothpick-factory</u>). These resources (Facilitator Guide II and the SS Presentation) will assist you in facilitating a discussion about soft skills with students who are enrolled in a Manufacturing Technology Program course. It is designed to raise awareness of the importance of soft skills in the workplace. More specifically, participants are expected to rehearse, become aware, identify and reflect on a set of soft skills affecting their performance in teams (e.g. communicating effectively, leading, listening, problem solving, and being flexible). The objectives of the activity are:

- To assist the student in assessing their own soft skills: listening, leading, adapting, speaking, problem solving, and working in teams.
- To identify and reflect on the soft skills that affect performance.
- To address issues and challenges each team faced.
- To raise awareness of the importance of soft skills in the workplace.

### What is required:

In order to effectively facilitate the Toothpick Factory<sup>®</sup> activity you must have a thorough knowledge of soft skills and how they affect the workplace.

### Materials:

- Toothpick Factory Kit® for each team
- Flipchart/white board and markers
- Computer (with PowerPoint)
- Timer/clock
- Pencils

- Items for custom order (if applicable for MRC)
  - \* Markers, stickers, glue, paperclips, etc
- Large envelope (to keep SS Scorecards)

### Tips for facilitators:

- The activity consists of two (2) lessons, each 45-55 minutes (not including the Optional Extended Lesson).
- These lessons can be set up "back to back or "Day 1 Day 2".
- The activity is intended to be played in teams of four students, each assuming a primary job function.
- Be flexible. Plan your process in advance, but be ready to change or adapt to meet the needs of the group.
- Don't make the activity too complex. You do not want the activity to get in the way of learning and discussion.
- Don't try to cram too much into the time you have. Allow time for meaningful discussion. Often, the sharing of ideas and discussion has the most value for students.
- There is a balance to strike between giving students time to express themselves and keeping the activity on track.

# **LESSONS**

1. Lesson One Overview – Soft Skills Introduction (45 minutes)	1. Lesson One Overview – Soft Skills Introduction (45 minutes)				
Activities/Task	Slide number	Time			
Introductions	1-2	2 minutes

# 3. Optional Lesson Overview – Implementing Market Response Cards (MRC) (45 minutes)

### Objective:

The objective of this lesson is to introduce some "real world" scenarios that happen everyday in the workplace. This will allow the students to be introduced to these different "market responses" that occur.

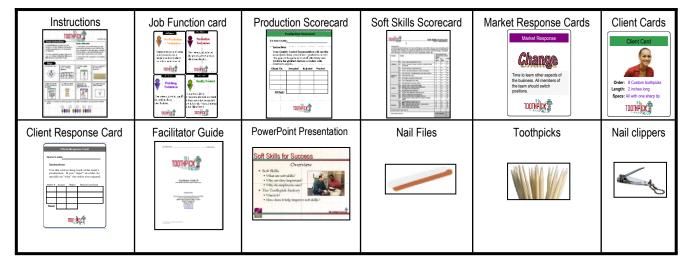

#### Instructions:

- 1. The "Toothpick Factory Optional Lesson" presentation will guide you through implementing a Market Response Card. This PowerPoint is for facilitators ONLY (Train the Trainer). This is not something that you would present to students/participants.
- 2. Rotating the Client Team (CT) members Ask for X number of volunteers (depending on how many CT members you need) from the PT, and have them switch places with the CT members. For example, "I need 1 volunteer from each PT to be a member of the new CT."

Activity/Task	Slide Number	Time
Introduction of Market Response Card	25	2 minutes
Start game – observation	26	15 minutes
What did we learn?	28	15 minutes
Review and Wrap-up		
- Team Results		
- What was the impact of the MRCs?	29-30	13 minutes
- Round 1 vs. Round 2		
- Improving Soft Skills
